Software Catalog

This release includes Software Catalog with capability to discover 330+ new software versions including but not limited to the following software manufacturers like Amazon, Anthropic, Citrix, DeepSeek, Google, Intel, Microsoft, Open Text, OpenAI, Oracle, Perplexity, SAP & VMware.

New signatures included in this release:

Template signature is a method of discovery where the version of a component is detected automatically, and a specific version is dynamically added to the catalog. Such template signatures include all component versions. They are used when the software is frequently updated, and the deployment method has not changed. One template covers 10+ software versions.

 Changes made to the software component definition in catalog (e.g., modification of component name, version, or publisher) may cause creation of new definition of the component and removal of previous one. This leads to loss of Tagging, Classification and custom EOS information.

Additionally, when discovery is based on a signature evaluated on an endpoint, previous discovery results temporarily disappear until the next software scan and related data import. The new catalog must be propagated to the endpoints before the scan execution.

Updated discovery mechanism for specific software with this behavior includes specific notes (for details and impacted software title refer to the list of enhancements, ideas implemented and list of defects).

HCL BigFix Platform Bundle Definitions

For this catalog, new bundle definitions for the HCL BigFix Platform components and HCL BigFix Remote Control components to the HCL BigFix Platform parent product have been added. This includes bundling for the following components:

- HCL BigFix Platform (Versions 10 and 11):
 - BigFix Platform Console
 - BigFix Platform Explorer
 - BigFix Platform Plugin Portal
 - BigFix Platform Relay
 - BigFix Platform Server
 - BigFix Platform WebUI Service
 - BigFix Platform Client Deploy Tool
 - BigFix Compliance - Content Site
 - BigFix Inventory - Content Site
 - BigFix Lifecycle - Content Site
 - BigFix Patch - Content Site

- HCL BigFix Remote Control (Version 10):
 - BigFix Remote Control Agent
 - BigFix Remote Control Broker
 - BigFix Remote Control Command Line
 - BigFix Remote Control Controller
 - BigFix Remote Control Gateway
 - BigFix Remote Control ODT
 - BigFix Remote Control Server

Please note that the bundling of BigFix Platform and Remote Control components under the 'BigFix Platform' product is a reporting improvement designed to help easily localize and filter information within inventory reports. Licensing calculations will continue to work exactly as before, this new bundling does not change existing licensing operations.

HCL Workload Automation, HCL Hero, HCL Clara Bundle Definitions

For this catalog, new bundle definitions for the HCL Workload Automation, HCL Hero, and HCL Clara components have been added. This includes bundling for the following components:

- HCL Workload Automation for version 10.2
 - IWS Server
 - IWS Dynamic agent
 - IWS Fault Tolerant Agent
 - IWS File Proxy
 - Dynamic Workload Console
 - HCL Z Workload Scheduler Agent
- HCL Hero for version 1.0
- HCL Clara for version 2.0

For previously discovered SWID tags, the bundling information will appear after some time

Metric Information Added for Oracle Database Licensable Options

To improve license compliance and utilization reporting, metric data has been added for Oracle Database Licensable Option components. This update includes metric details for the following components:

- Oracle Database Licensable Option - Real Application Clusters
- Oracle Database Licensable Option - Partitioning
- Oracle Database Licensable Option - Advanced Compression
- Oracle Database Licensable Option - Advanced Security
- Oracle Database Licensable Option - Database Vault
- Oracle Database Licensable Option - Active Data Guard
- Oracle Database Licensable Option - Database In-Memory
- Oracle Database Licensable Option - Multitenant
- Oracle Database Licensable Option - Data Mining
- Oracle Database Licensable Option - OLAP

- Oracle Database Licensable Option - Spatial and Graph
- Oracle Database Licensable Option - Real Application Testing
- Oracle Database Licensable Option - Label Security

Modified content

The following fixlets were updated and should be run to install the latest versions of the specific components:

- Server Software Catalog Update – version 20260913, 13/09/2026

Enhancements and important changes

The following table lists enhancements and changes that are introduced in this update.

Abstract Story	Description	Available since
Added new publishers	Following new publishers are added: • DeepSeek • SpaceXAI • Apigee • Glyph & Cog • Axis Security • Belledonne Communications • Nous Research • Cambridge Technology Group • Anomaly	20260913
